CAREER OBJECTIVE

- Motivated Trainee Software Engineer with a strong foundation in programming, data structures, and problem-solving. Hands-on experience in developing web and application-based solutions using Java, Python, and JavaScript. Comfortable working across the full software development lifecycle, learning new technologies, and collaborating in fast-paced team environments. Eager to grow, contribute, and build reliable software solutions.

PROJECTS

Job Application Management App

- Developed a secure web application for managing job applications.
- Implemented authentication, role-based access, and structured data storage.
- Integrated Firebase and SQL for real-time and relational database management.

Face Recognition Based Attendance System

- Built an automated attendance solution using real-time face detection.
- Integrated backend processing with frontend interface for real-time results.
- Achieved 85 percent accuracy using optimized preprocessing techniques.

Face Emotion Detection System

- Developed a machine learning model to classify human emotions from images and video.
- Implemented preprocessing, normalization, and feature extraction to improve model accuracy.
- Tech Stack: Python, OpenCV, DeepFace.

WORK EXPERIENCE

Software Developer

Sarv.com

present

- Currently working on scalable web applications.
- Improving performance and user experience.

Web Developer

SRJ global softech

May 2025 –July 2025

- Developed scalable and responsive web applications using React.
- Optimizing application performance and improving overall user experience.

Frontend Web Developer

RnPsoft Pvt Ltd.

Sep 2024 –Dec 2024

- Designed responsive UI components using modern web technologies.
- Improved cross-browser compatibility and load speed.

TECHNICAL SKILLS

Programming and Tools

- Java, Python, C++, C, JavaScript

Frontend

- HTML, CSS, JavaScript, React.js, Responsive Web Design, UI/UX Optimization

Backend and Systems

- Node.js, REST APIs, System Design Basics, Firebase Authentication

Database

- SQL, MySQL, Firebase (Realtime and Structured Data Handling)

Core Concepts

- Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools and Technologies

- Git, GitHub, Linux Basic, Jupyter Notebook, Agile, SDLC

EDUCATION

B.Tech in Computer Science

7.63 CGPA

2021-2025

Galgotia's University

Intermediate

78%

2019-2020

Army Public School

High School

80.4%

2017-2018

Army Public School

EXTRA-CURRICULAR

- AWS Academy (AI/ML Virtual Internship)
- Celonis ML Foundations Internship – Process Mining and Automation
- Cisco Cybersecurity Essentials and LinkedIn Cybersecurity Threat Landscape
- Participated in Galgotias University's "Hack-erfest 2022" and 1st position, "DEXTERIX 3.0" (Galgotias international hackathon) made it to semi-finals, made to final of Pitch-Me(Galgotias University), rolled out of finals of "DEX- TERIX4.0".
- Research paper on Face Recognition-Based Attendance System accepted at PICET conference.
